Message from John Duffy, SVDB President

Swing low, sweet chariot goes the opening lines of an old gospel song - and herein is contained some good advice for us metal detectorists. On a recent Club hunt at the Yuba River sand beach I noticed two things that I wish to comment on. First of course is related to the gospel song. As we all learned from a recent presentation made by our very own Lee Weise, signal penetration is approximately equal to coil diameter. And I suspect this is under "ideal conditions" - which we may not always have. What I noticed at the hunt is that many of the participants were swinging their "chariots" (search coils) anywhere from two to five inches above the sand surface! While this probably did not affect the outcome of the beach hunt as all the targets had been planted that morning and so were not particularly deep if that is one's normal practice it can have a big effect on success in the "real world" of metal detecting. Every inch above the ground is an inch lost in depth of detection - and for many of the more valuable targets (think silver coins) it is those "bottom inches" that spell the difference between a good hunt and a great hunt.

So, next time you are swinging your chariot, take a look at how low you are going - and work to incorporate low swings into your consciousness.

Next I briefly want to note that I picked up quite a few bottle caps and other assorted pieces of metal trash that were lying on the surface of the sand - by appearance they had been detected, dug up and then just dropped back to the sand. While I didn't actually see anyone doing this I just want to remind us all that one of the good behaviors of a detectorist is "If you dig it, pick it!" - even if it's just trash, please remember to pick it up and dispose of it properly. Thanks for thinking about this also.

Good Hunting, **John Duffy**

SEE YOU AT THE NEXT MEETING!!

- SVDB Meetings are held at the North County Corporate Yard (Formerly SMUD Building) 5026 Don

Julio Blvd. North Highlands, The meeting is held on the first Thursday of each month and starts at 7:30 pm.

SVDB Santa Cruz Beach hunt

Held on June 21, 2008 @ 6:00 am

This Santa Cruz Beach Hunt is a one day hunt only. You will need to be there at 6:00 am with a kick off warm up coin planted hunt on the beach. The hunt will be over by 10:45 - 11:00 am. Instructions on how and where to hunt the beach will be offered by Lee after the warm up hunt. This Hunt will take place on the main beach in Santa Cruz. I suggest getting up and driving in on Saturday Morning. It takes about 2 hours and 45 minutes, leave a little extra time for a breakfast stop. We will meet on the right side of the wharf in the usual spot.

The cost for the beach hunt is \$15. The money goes for the warm up hunt and prizes for: Most Coins, High Dollar amount, Best Silver jewelry, Best Gold Jewelry, Best Find of the Day, Oldest Coin.

SVDB Santa Cruz Beach Hunt Rules

Sacramento Valley Detecting Buffs

1. Entrants must provide their own metal detector and beach digging tools (sand scoops, baskets, headphones, etc.).
2. All holes made in the sand must be filled to avoid injuries to beach goers.
3. Keep a distance of 15-20 feet from all beach goers sitting on the beach.
4. Keep everything you dig. TRASH should be kept and deposited in Trash Containers.
5. All detectorists are requested to signup in advance, and pose for a group picture the day of the hunt.
6. Must be a current SVDB Member.

April's SVDB's Day-in-the-Park hunt results:

- 1st Sunday at Del Campo, Six members found 102 coins.
Oldest coin **James Neely**, prize was a 1964 Quarter
- 3rd Sunday at Laguna, four members found 206! coins.
Oldest coin **Ivan Miller**, prize was a 1964 Quarter

SVDB's Saturday, May 17th Metal Detecting Hunt

There were 22 - SVDB members that signed up for the metal detecting hunt on the Feather River but only 16 or so actually were at the hunt. Rick did an outstanding job at laying out the field and getting the coins planted. James cleaned up the trash on the hunt field before the event began which was a big help. It was a great day to be outdoors and cool enough at 10:00 am to make the hunt very enjoyable.

Here is the SVDB group picture just before hunt start

There were 400+ coins & six token prizes

Quote of the Month

"You cannot bring about prosperity by discouraging thrift. You cannot strengthen the weak by weakening the strong. You cannot help the wage earner by pulling down the wage payer. You cannot further the brotherhood of man by encouraging class hatred. You cannot keep out of trouble by spending more than you earn. You cannot build character and courage by taking away man's initiative and independence. You cannot help men permanently by doing what they could and should do for themselves." Abraham Lincoln

April 24, 25, 26 Daytona, Florida Beach Hunt

This metal detecting hunt was in Daytona, FL and has been held for the last six years. This year there were four in attendance from SVDB, three participated in the three day metal detecting event. There were four paid hunts and two free hunts for the adults and a free kids hunt with many trying their luck.

The prizes were \$11,000 in coins for the hunts, and also silver jewelry for one of the hunts. Cash prizes total at least that number again and 32 metal detectors valued from a couple of hundred dollars to well over a thousand dollars each. There were also many gold coins and silver rounds available for prizes plus much, much more.

This is a partial display of the detectors available for prizes.

Members from SVDB were:
Rick & Ann Costello
Lee & Lois Wiese

Lois did not participate in the hunts but cheered us on.

There were 203 Metal Detecting Hunters on the beach for each hunt.

This is a photo of Ann Costello winning an ACE 250 with her token that she found on Sunday.

Sacramento Valley Detecting Buffs
